## Sustainable Forestry Policy Futurewood Corp.

Futurewood Corp. is committed to the goals of sustainable development and promoting responsible resource management and use. To achieve these goals, and where applicable, Futurewood Corp. implements and achieves conformance with the Sustainable Forestry Initiative® (SFI®) Forest Management & Fiber Sourcing (2015-2019) and the Chain of Custody Standard, the Forest Stewardship Council® (FSC®) and the Program for the Endorsement of Forestry Certification (PEFC™) Standard Chain of Custody and Controlled Wood standards

Futurewood Corp.'s Policy is to implement and achieve the Principles of Sustainable Forest Management including employing environmentally, socially, and economically sustainable practices to meet present needs without compromising future generations. This is accomplished by practicing and promoting a resource and conservation stewardship ethic.

Futurewood Corp.'s Policy is to promote and achieve the Principles of Sustainable Forest Management including: practicing sustainable forestry, employing responsible practices, regenerating the forest and maintaining productive capacity and health, protecting and maintaining long-term forest and soil productivity, protecting water resources, protecting special sites and biological diversity, complying with legal requirements, maintaining acceptable visual impacts(aesthetics) as well as providing recreational opportunities to the public, contribute to research efforts to support future advancement in sustainable forest management, to continue to provide training and education programs to improve the forest stewardship, promote community involvement and social responsibility to broaden the practices of sustainable forestry, making all audit findings available to the general public, and committed to forest management advances and continually improving forest practices. Futurewood Corp. is committed to comply with applicable laws and regulations, including social laws such as those covering civil rights, equal employment opportunities, anti-discrimination and anti-harassment measures, worker's compensation, indigenous peoples' rights, workers' and communities' right to know, prevailing wages, workers right to organize, and occupational health and safety.

We will make every effort to determine the source of all wood used in our products to ensure they do not originate from sources involved in the following activities:

1. Illegal logging or the trade in illegal wood or forest products
2. Violation of traditional and human rights in forestry operations

3. Destruction of high conservation values in forestry operations
4. Significant conversion of forests to plantations or non-forest use
5. Introduction of genetically modified organisms in forestry operations
6. Violation of national laws and regulations as they interpret the ILO Core Conventions as defined in the ILO Declaration on Fundamental Principles and Rights at Work

Futurewood Corp. is committed to practicing responsible fiber sourcing practices in North America to promote forestry practices that are both scientifically credible and economically, environmentally and socially responsible. In addition to the SFI, PEFC and FSC Standards, Futurewood Corp. recognizes and promotes certification to the American Tree Farm System® (ATFS®) Standard, the Canadian Standards Association (CSA®) and other internationally recognized certification standards.

Futurewood Corp. is committed to comply with applicable laws and regulations, including social laws such as those covering civil rights, equal employment opportunities, anti-discrimination and anti-harassment measures, worker’s compensation, indigenous peoples’ rights, workers’ and communities’ right to know, prevailing wages, workers right to organize, and occupational health and safety.

To help implement and achieve the above Sustainable Forestry Standards, Futurewood Corp. has developed and adopted appropriate documents, manuals and procedures to guide its land management and wood and fiber procurement, tracking of the chain of custody of wood fiber and recovered material, and making on- and off-product claims and using labels.

The company is committed to annually review the effectiveness of its Sustainable Forestry Policy and associated programs as part of management review to continually improve the management system and environmental performance.
